

# HUGO AND PLATO

First couple of weeks back!

Week beginning 4th and 11th September 2023

## REMINDERS

Small reminder to please make sure that all of your children's items are labelled with their name. We do our absolute best to get the correct items to the right child but it would help us so much more if their names are on everything. Thank you so much.

## MESSY

We've already enjoyed getting messy and using lots of resources. In Early years we do a lot of explorative play.

## NEXT WEEK

We are continuing to get to know one another and our new class friends. We are also finding out about our new routines. Please can you send in a picture of your family as we will be looking at families. Please also name them so we know too. If you send the picture to the office and title FAO Hugo/ Plato class.

## HUGO

We have had a wonderful first start back getting to know each other. We have been working on transitions to and from the classroom and coming to the circle to join in with circle activities. We have enjoyed some attention autism bucket time and we all LOVE bubbles.

We have also been enjoying lots of play and the class have really enjoyed being outdoors for our welly walk!

## PLATO

In Plato this week, the children have settled really well into class and meeting their new friends.

The children have been exploring counting with the bus using symbols and switches.

We have also had a wonderful time with the role play area and the children have enjoyed trying on different masks.

We have been practicing our turn taking skills and joint attention in activities. Plato are already doing really well with this.
